

# lgbtqia2+ parenting support group

Parenting can be isolating and confusing, even in the simplest circumstances. Parenting a child who is exploring their gender or sexuality can evoke these feelings even further perpetuating disconnection and a lack of support. **Let us try and break this cycle together!**

**You're invited to this support group to connect with other families who have a shared experience as a resource for your journey.** Come join us where we will discuss all things gender and sexuality.

Virtual | Monthly - 4th Tuesday 6:00pm  
*Ongoing*

[Contact for Enrollment](#)

**Each meeting will have a topic of discussion, followed by open time to connect with other families.**

Occasionally we will be inviting speakers from our community to come and share their expertise so we can remain informed and supportive to our young people.
