Decluttering & Yard Cleanup

Do you know an older adult who needs help with decluttering or cleaning up an overgrown yard?

King County Veterans and Human Services Levy has provided one time funding during 2023 to help with this need.

Eligible individuals must:

- be a King County resident.
- be age 55 or older.
- be at or below 80% area median income (\$66,750) annually.

Project Details:

- Yard work: Homes need to be owned by the older adult, or by the people they live with.
- Decluttering: Homes can be apartments or rental homes with emphasis on people at risk for eviction due to clutter.
- Priority for both types of jobs is to improve safety inside and outside the home, improve functionality of living space, and reduce risk of falls.
- Project funds can't be used to do ongoing maintenance of the yard. Given the one-time nature of the funding, it is focused on getting the yard to a manageable state for someone to do the ongoing yard maintenance.
